A personal concierge service has opened in Blue Bell. Time, Sweet Time is run by Teresa Watkins, who used to work in the corporate world and said she knows how precious time can be for a busy working professional.

time, sweet time
your personal concierge

Her service aims at giving back some of that time by performing tasks that her clients don't have time for from organizing the home and office, to planning events or even waiting for that contractor or appliance delivery at a person's home while they work.

For between \$40 and \$50 an hour, depending on the service, Watkins said she can accommodate just about any type of time-saving request and can work on projects outside her normal list

of services. She also conducts needs assessments with her clients to find which areas of service would be most beneficial to them.

"There are individuals who really need help and there are things, like grocery shopping, that they don't mind outsourcing," said Watkins.

She said she believes there is enough demand for her service because Bucks County and nearby Chester and Montgomery counties are among the wealthiest counties in the country.

"There are a lot of busy professionals here with the money to spend on help," she said.

Currently, Watkins operates the business by herself and said she is managing to handle her client load. But even the concierge is getting busy, and she is in the process of hiring staff to take on additional business.

Time, Sweet Time, is located at 553 Deer Lake Circle, Blue Bell. More information can be obtained on the Web site www.timesweettime.net or by calling (610) 331-0975.
